WORKING TOGETHER FOR A SAFER WALES

If there's a fire

These tips will help keep you and your family safe from fire.

If there's a fire – get out, stay out and call 999.

Make sure you can get out of the window if needed.

Smoke alarms save lives

Fit a smoke alarm. Your local Fire and Rescue Service can fit smoke alarms.

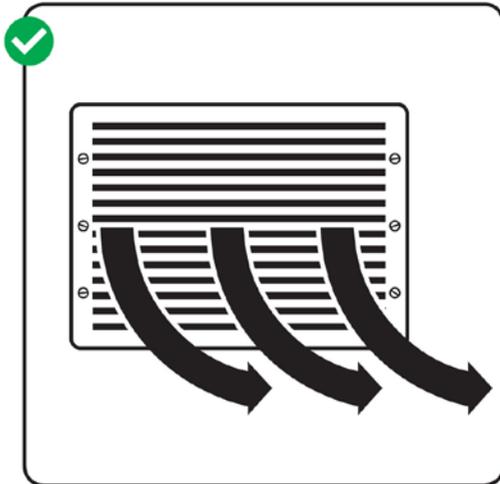

Test it once a week.

Don't remove the batteries.

Carbon monoxide

Carbon monoxide (CO) is a poisonous gas that can kill you

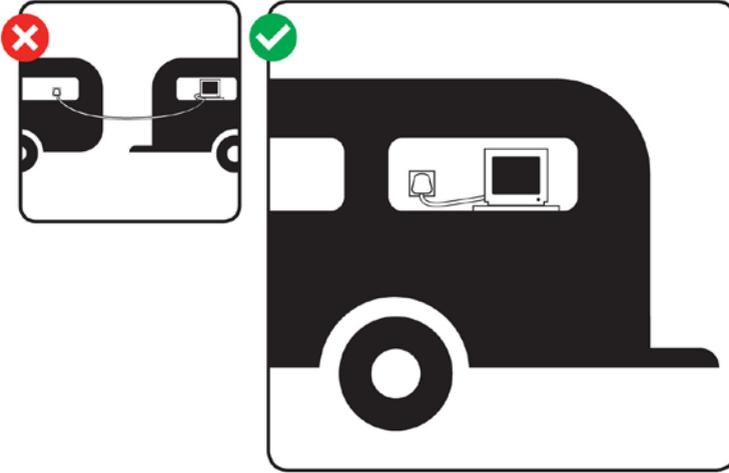

Keep air vents clear.

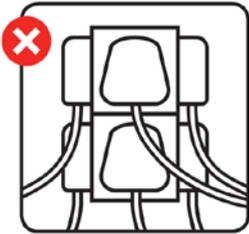

Fit a carbon monoxide (CO) detector.

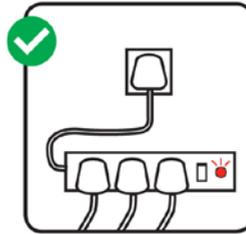

Electrics

Don't run electrics from one van to another.

Don't overload.

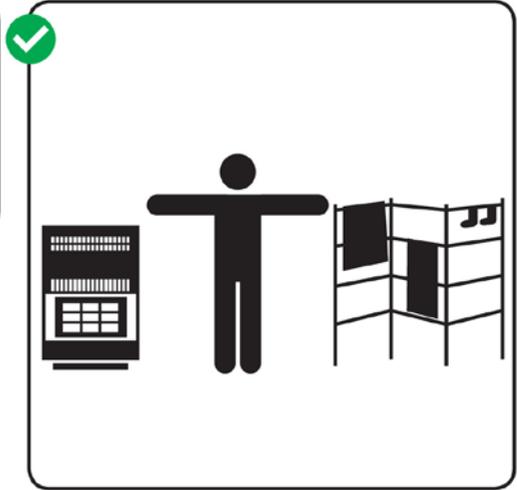

Using an adaptor with a lead is safer.

Don't coil up electric leads.

Heaters

Don't dry clothes on or right next to the heater.

Make sure heaters work properly.

Use a Corgi engineer to fix gas heaters.

Indoor risks

Avoid leaving candles unattended. Put candles on a heat resistant base such as a plate.

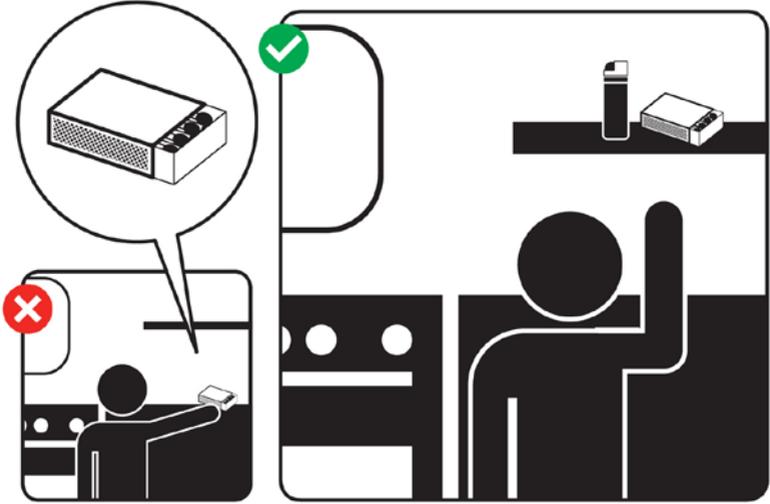

Smoking inside can be dangerous.

Smoke outside instead.

Indoor risks

Keep matches and lighters out of children's reach.

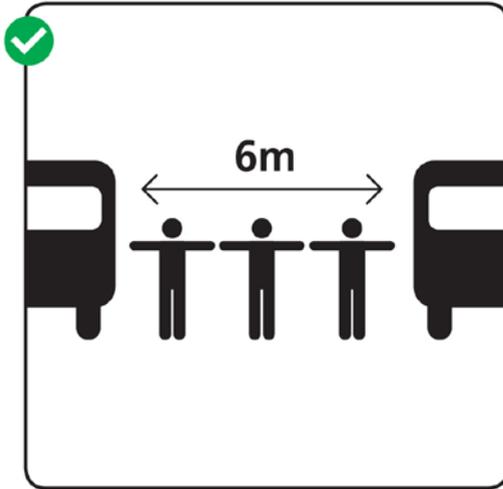

Take extra care when cooking with hot oil.

Keep pan handles out of children's reach.

Outdoor safety

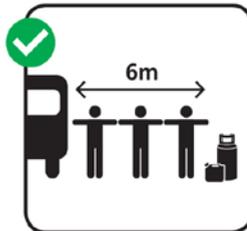

Try to keep trailers six metres apart (that's roughly the length of three people standing in a line with their arms held out).

Don't store fuel under your home.

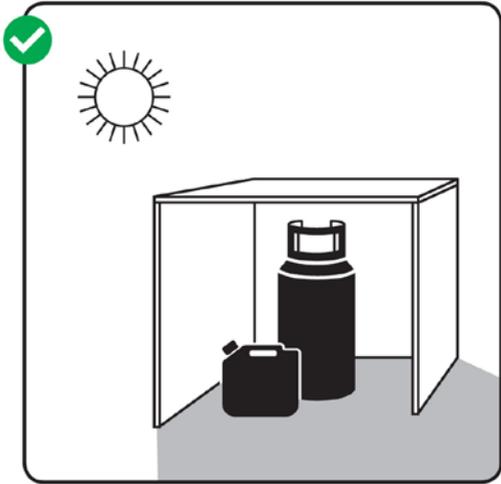

Turn off gas canisters when not in use.

When not in use fuel should be stored six metres away.

Outdoor safety

Keep fuel away from heat when not in use.

When in use, keep upright and secure.

Don't let gas leak.
